About Me

I'm a Frontend developer looking for opportunities in the IT area. Graduated in Business Administration and Product Design, I had the opportunity to work in several market sectors with different skills.

Motivate by learning, passionate about technology, and adaptable to change, I was led to expand my expertise, challenging myself in the technology industry.

Work Experience

Frontend Developer / Self employer

2021 - Present, Munich

Acting as a frontend developer, applying HTML5, CSS3, and JavaScript language to different projects and web applications. Solid knowledge of design principles for layout creation.
